

Operation Analytics and Investigating Metric Spike

By Santhosh R

Project Objective

Objective

- Analysis Data end to end. After Analysis give the suggestion to Company Growth and Development
- Company Data gives the whole summary of the Company

jobs reviewed per hour per day

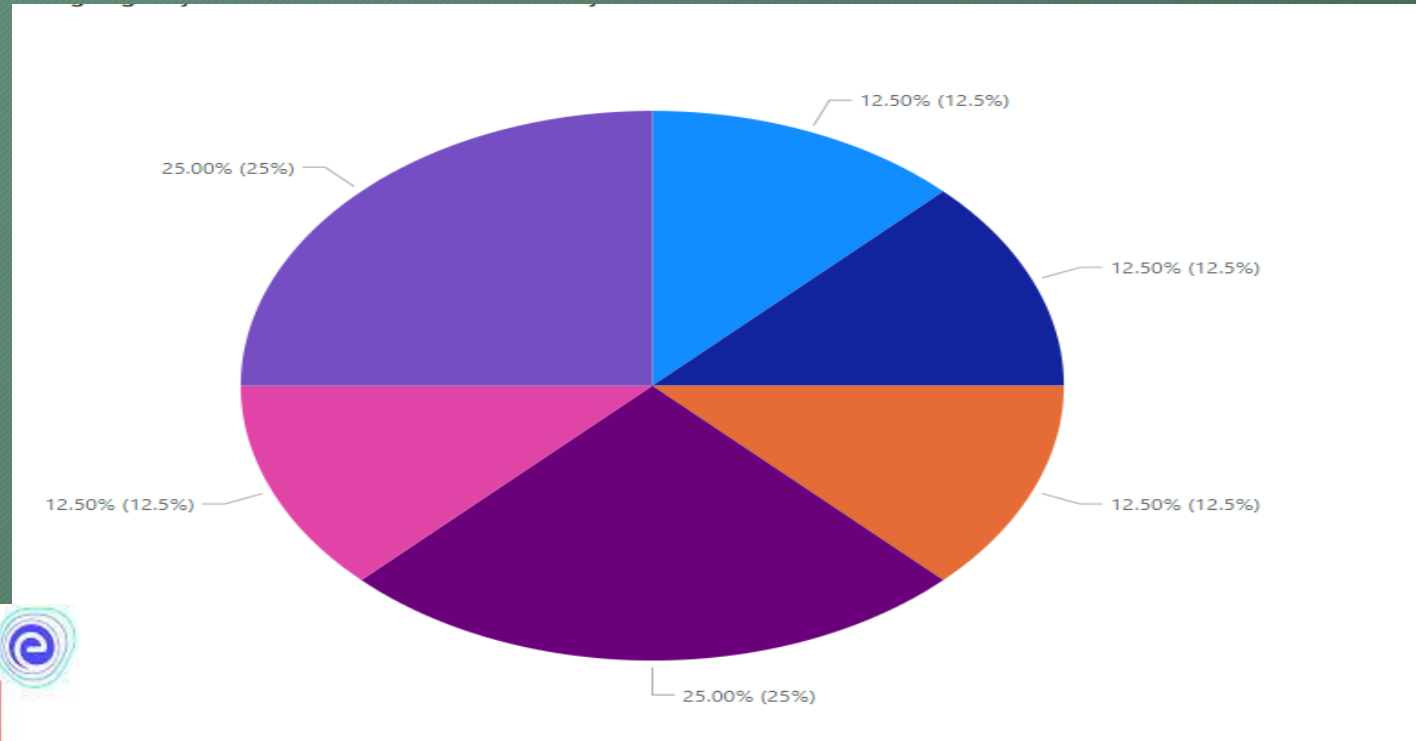

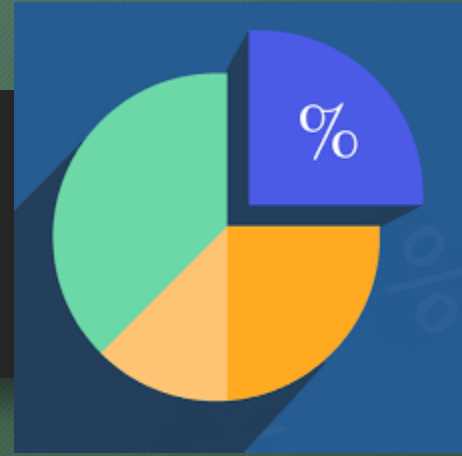

- Per Day Per hour there are 2029 Jobs are reviewed.
- Per Sec 0.5 Jobs are reviewed.
- Per second there are 18555 events are happened. I prefer 7 day metric because weekly once only we know how much work we are done from the weekly target

8h
5h
3h

Percentage share of each language:

Duplicate rows

1. Using the Duplicate is present Option we can see the Duplicate Values.
2. Using the Duplicate drop or Delete option Permanently delete Duplicate Values.

Remove Duplicate Rows

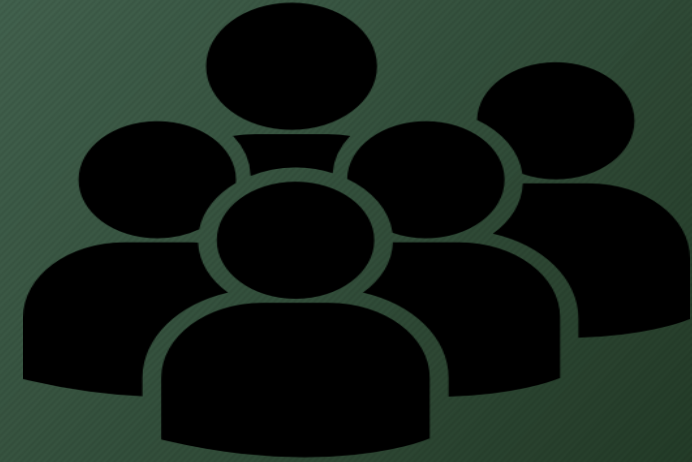

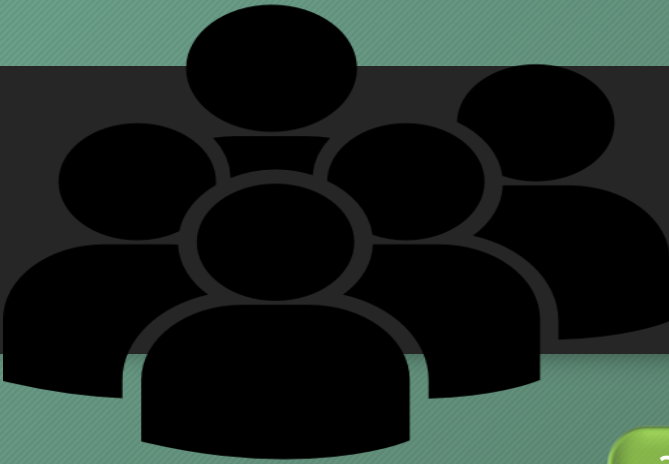

90 Users are
randomly
Active from
9381 Users.

370 Users are
averagely
retained in
Weekly
